

# E3000 Cash Drawer

## A High Capacity Cash Drawer for Retail Verticals

The E3000 is a ruggedised cash drawer which is easy for the retailer to adopt as it has the same footprint as many of its competitors layflat solutions. The E3000 is suitable for use in many retail verticals including Food, C-Stores, QSR, Hospitality, Specialty, Pharmacy and Petrol Forecourts.

The E3000, with its ergonomic design and generously sized note compartments, allows cashiers to give change faster, and with a weighable coin cup accessory kit, makes coin counting easy resulting in improved productivity.

### Ergonomically Friendly

The ergonomic design with high capacity note & coin cup compartments helps cashiers to dispense change faster.

### Insert Adaptability

The 8 coin, 5 note insert accepts Euro's, Sterling, Canadian, Australian, New Zealand & Singapore dollars, Swedish Kronor and South African Rand and is exchangeable with some common insert footprints. Other insert options are also available.

### Additional Media Storage

Two 120mm (4.7 inches) wide media slots post under the insert into a generous 12mm deep storage area.

### Cash Drawer Safety Tilt Feature

The E3000 has a Safety Tilt Feature which includes a single M5 threaded insert providing safe attachment of the cash drawer to the counter top (M5 screw hole is available - depending upon the counter type).

With spring and slider mechanisms mounted on both sides of the base, durability is key and therefore the ejection springs must withstand at least 1 million cycles.
