ALL-IN-ONE MOBILE POS

Wired and Wireless Ethernet Cash Drawers

Ethernet Cash Drawers (Model Numbers: 470, 480, 482, 488, and 490)

- The APG NetPRO® Cash Drawer is a free-standing IP-enabled device on the network. It communicates with the client through direct UDP and TCP sockets.
- IP enabled cash drawers are available for connection to wired or wireless store networks and are supplied with an external power adapter.
- Cash drawer discovery and configuration is simple with the APG NetPRO® Discovery and Configuration Utility. The cash drawer can also be discovered and configured programmatically.
- While sharable with multiple clients on the network, the cash drawer includes features to ensure an attended cash transaction.
- The cash drawer stores time-based usage data to support in-store loss prevention, and asset management and maintenance efforts. The cash drawer can also broadcast usage alerts in real-time.

HTML5 WebSocket Cash Drawer

For Browser-Based POS (Model Numbers: 487 and 497)

- The APG NetPRO® Cash Drawer for HTML5 WebSockets is a free-standing IP-enabled device on the network. It communicates with the client through a standard HTML WebSocket to enable cash drawer use in a browser-based environment.
- Cash drawer discovery and configuration is simple with the APG NetPRO® Discovery and Configuration Utility. The cash drawer can also be discovered and configured programmatically.
- The cash drawer stores time-based usage data to support in-store loss prevention, and asset management and maintenance efforts.

Bluetooth Device for a Cash Drawer

When a Tablet and a Cash Drawer are All You Need (Model Number: 510)

- The Bluetooth device enables a printer-kick cash drawer to be paired with a tablet.
- Proximity is achieved when the tablet comes within limited range of the Bluetooth device.
- Wirelessly synchronize and transfer data between a mobile device and cash drawer within a personal area network.
- APG provides demonstration applications for Android, iOS, and Windows.
- BluePRO® Bluetooth device is MFi certified for iPhone, iPod, and iPad.

INSTALL IT. FORGET IT.
